

Vážky (Odonata)

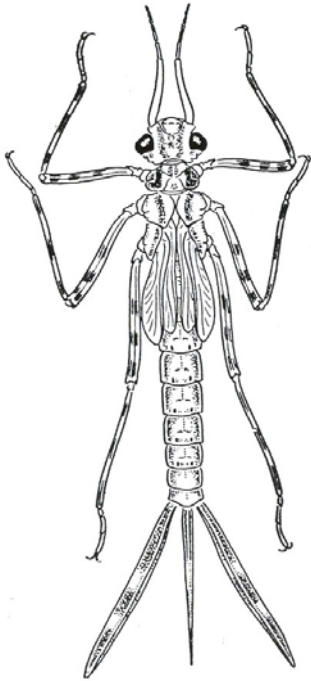

5

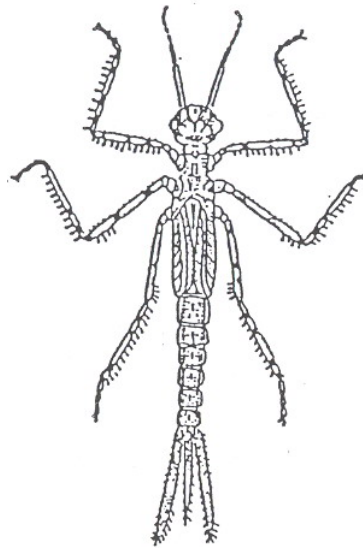

Zygoptera

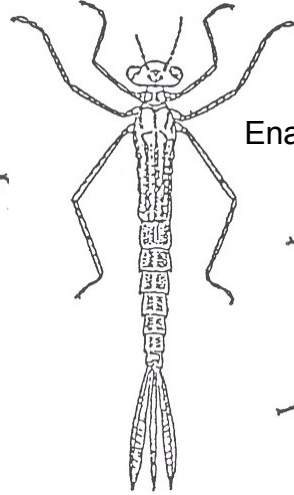

Calopteryx splendens

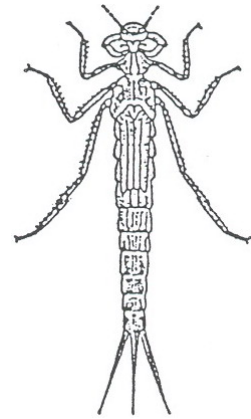

Calopteryx virgo

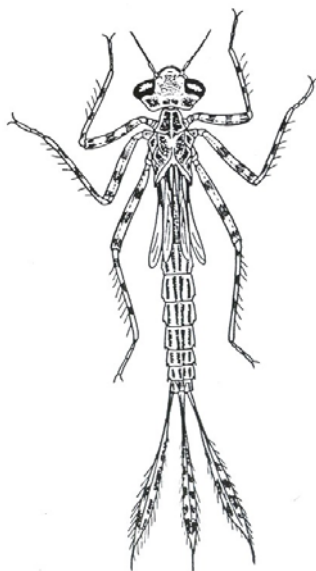

Lestes sponsa

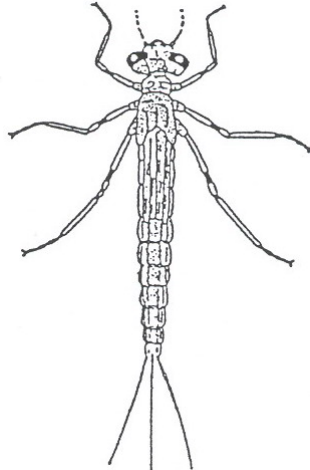

Enallagma cyathigerum

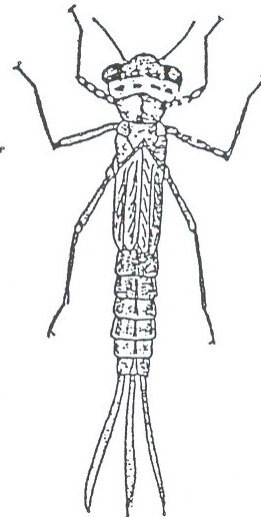

Platycnemis pennipes

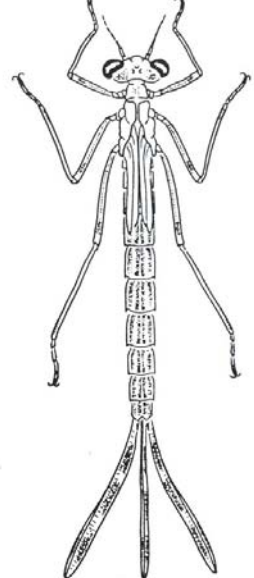

Ischnura elegans

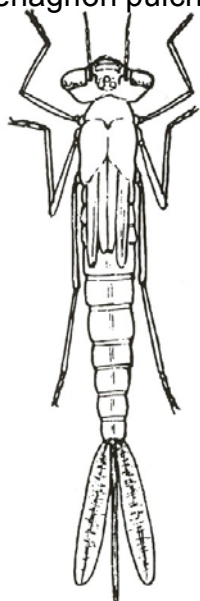

Nehalennia speciosa

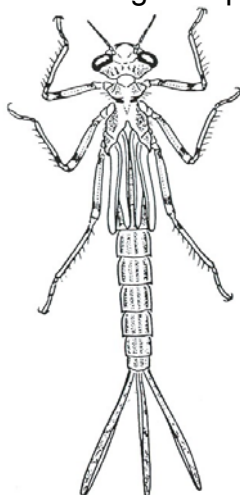

Lestes sp.

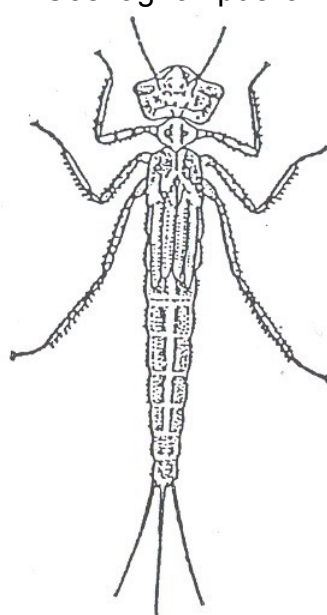

Coenagrion pulchellum

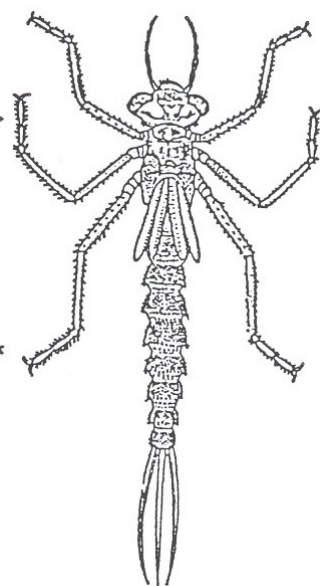

Coenagrion sp.

Coenagrion puella

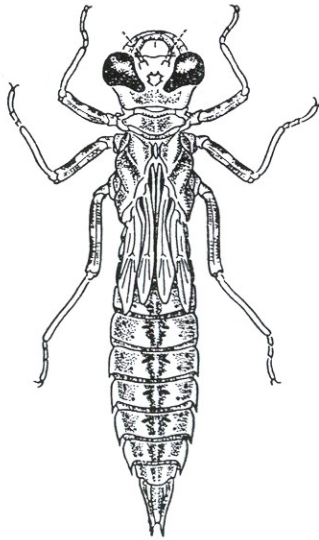

Erythromma najas

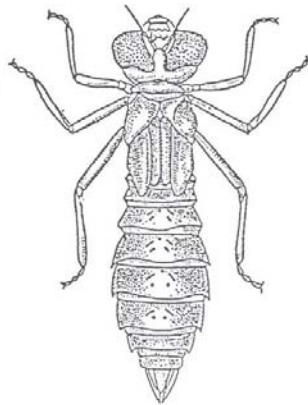

Coenagrion puella
(dospělec)

Anisoptera

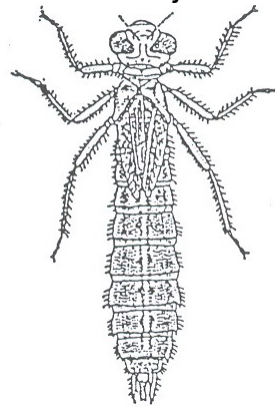

Aeschna sp.

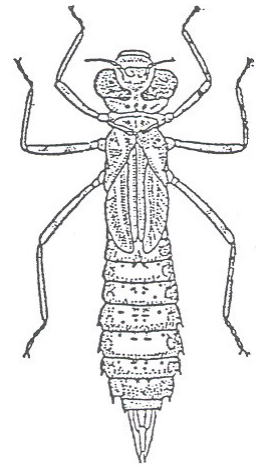

Aeschna viridis

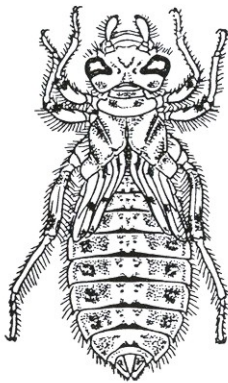

Aeschna juncea

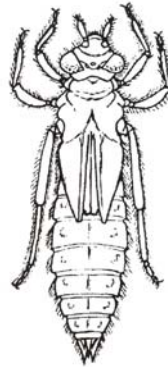

Aeschna grandis

Onychogomphus forcipatus

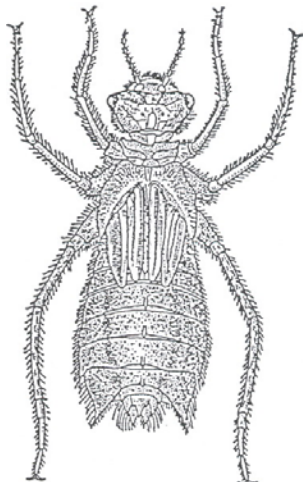

Gomphus vulgatissimus

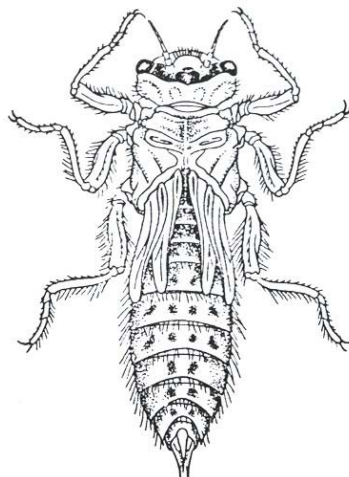

Gomphus flavipes

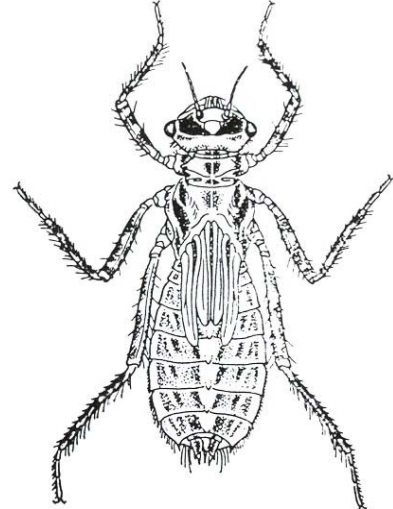

Epitheca bimaculata

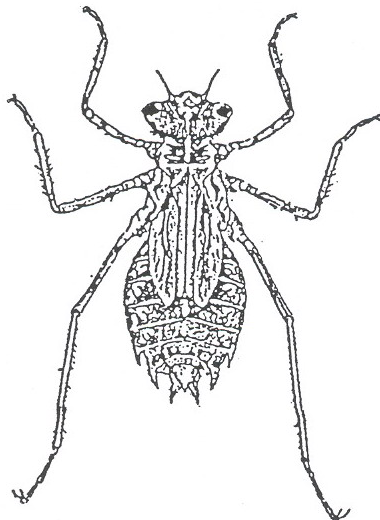

Cordulegaster sp.

Cordulia aenea

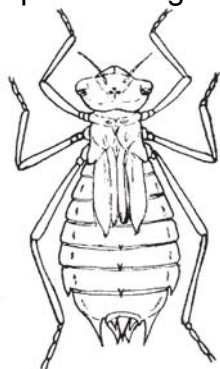

Sympetrum sanguineum

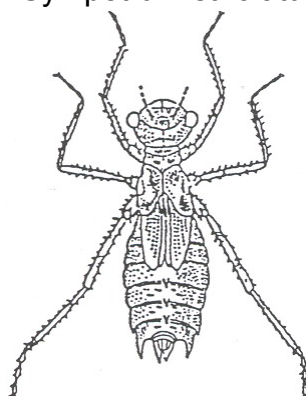

Sympetrum sanguineum
(dospělec)

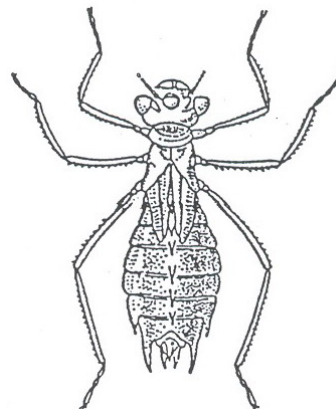

Sympetrum vulgatum

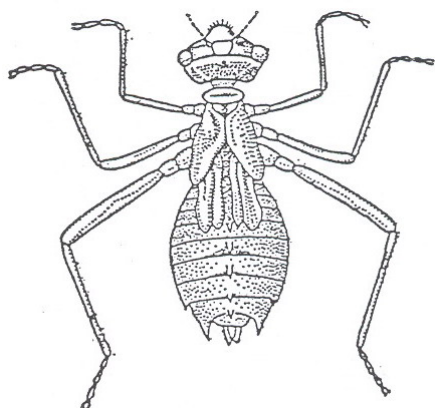

Sympetrum striolatum

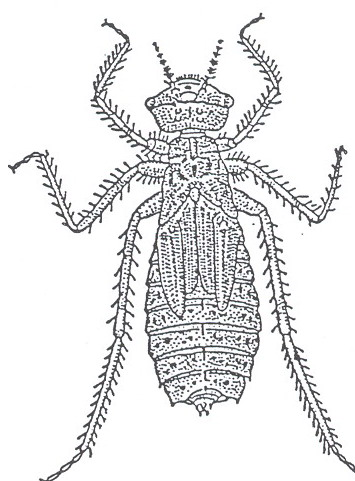

Sympetrum depressiusculum

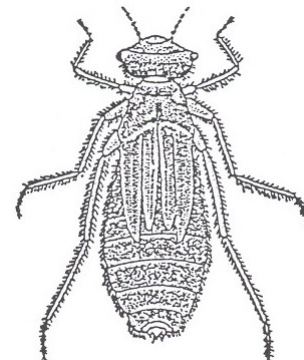

Somatochlora flavomaculata

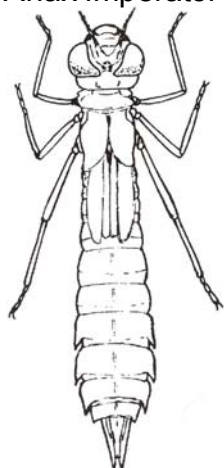

Somatochlora metallica

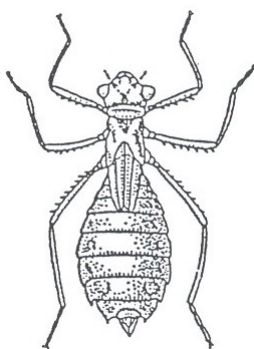

Somatochlora arctica

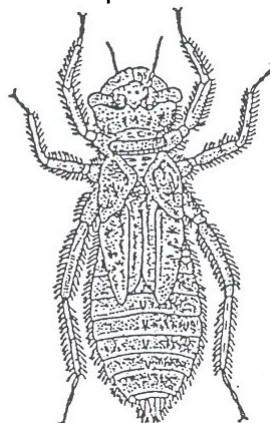

Anax imperator

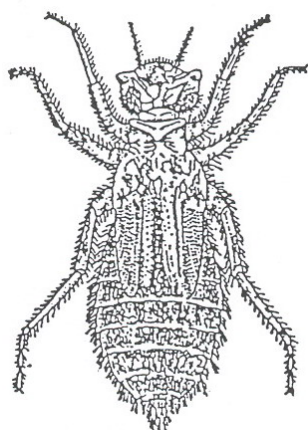

Leucorrhinia rubicunda

Libelula quadrimaculata

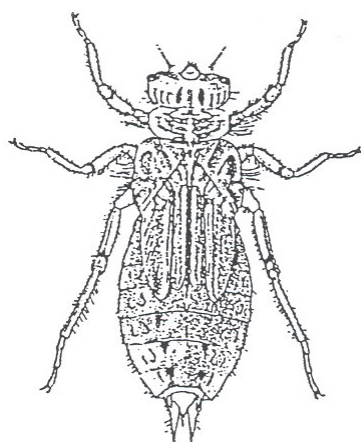

Libelula depressa

Libelula depressa
(dospělec)

Orthetrum cancellatum

Orthetrum cancellatum
(dospělec)
